Research notes

? Sources behind the Cueon pitch

Listening in a second language

? Sentence recognition in quiet: native listeners 99.6%

? Chinese listeners living in the US: 70.7%

? Chinese listeners living in China: 41.0%

Stress and recall

? Social stress (Trier Social Stress Test) impairs free recall of learned material

? Numbers and exact figures are the hardest to retrieve under pressure

Turn-taking

? Gaps between conversational turns are short across languages

? Silences of 0.6 to 1.2 seconds are judged negatively by listeners

Q&A and funding

? Kanze et al., Academy of Management Journal, 2018

Language barriers in science

? Amano et al., PLOS Biology, 2023

Reading on the glasses

? Ray-Ban Display: 600 x 600 pixels, right eye, about 20 degrees field of view

? A glance of 2 seconds fits about 4 to 5 words, so card leads stay at 12 words or fewer
